

Swiss Village, Inc.

CELEBRATE RETIREMENT... ENGAGE LIFE!

MEMO

TO: All Residents and responsible parties

FROM: Rod Mason, President/CEO

RE: Update – Continued Patience

DATE: April 28, 2020

Greetings All! I know that the sun is starting to warm, the birds are beginning to sing their spring greetings, and getting back to a normal routine of life is so very tempting! I am writing you now to simply implore you to continue our current pattern! Here we are at the end of April, now entering our eighth week of this lockdown, with no real end in sight yet, and we continue to claim **no active nor monitoring cases of** COVID-19 amongst our resident nor our employee family! And it is because you have continued to manage your ways and adhere to our requests of remaining on your campus! You continue to endure resisting the temptations... please keep it up!

It is so very critical in these days, when Governors are beginning to open softly their States (we have not yet heard what Gov. Holcomb will announce on Friday for us) to try to restore some level of economic activity, to remember the industry in which Swiss Village resides. Our industry will be the last part of any State's openings... the visits, for the time-being, will continue to need to be from outside, on electronics, and the North Campus still must remain on the North Campus, the South Campus likewise, and no entry into the Healthcare Center by anyone other than employees. We are beginning to discuss how best and when to restore activity in the Kinder Haus Daycare, the Muselman Wellness Center and the Beauty Shops and Barber... but even those areas are still yet to be decided.

We simply ask you again, please continue to be patient as we continue to try to protect our residents from this ugly virus! We have worked so very hard to make it this far... we cannot let our guard down now! We will continue to be in touch with you and will update any changes that might be passed along as quickly as we possibly can.

For now, however, thank you for your patience and persistence as we continue to manage according to the current pattern. Remember, we will be happy to do your shopping, your banking, your pharmacy pickups! Just give us a call! We are here to serve you!
