RE: COVID-19 Outdoor Visitation

I want to share an update we, unexpectedly, received within the last hour. The Indiana Department of Health (IDOH) Infection Preventionist was here and informed us of a change we are now required to make.

We are no longer able to allow Outdoor visits for; Edelweiss, Lavendel and Sonnenblum Place. This is due to these wings being classified (per the IDOH) as "Yellow Zones". Yellow Zones indicate that "Transmission-Based" precautions are in effect.

Alpenrose Place may continue to receive visitors for both indoor and outdoor visits because it is classified (per IDOH) as a "Green Zone".

While previous IDOH Guidance permitted scheduled outdoor visits in "Yellow Zones", the IDOH Infection Preventionist indicated this guidance has changed.

I certainly understand the disappointment in receiving this news and I appreciate you understanding our need to comply with these regulations. We believe that communication with your loved ones is very important. If you would like assistance with other forms of communication, please contact our Healthcare Activity Department to make arrangements.

Please feel free to reach out to me or any of our team with questions.

Again, thank you for your patience!

Sincerely,

Jay
