

Swiss Village, Inc.

CELEBRATE RETIREMENT... ENGAGE LIFE!

TO: Residents, Responsible Parties and Employees
FROM: Cris Morreale, VP of Operations
RE: Masks
DATE: May 19, 2021

You may have heard on the news recently that the CDC stated that vaccinated individuals no longer have to wear masks. Unfortunately, this does not apply to healthcare facilities like Swiss Village. Masks are still required to be worn while you are at Swiss Village per our regulatory agencies. As we get more information on this topic and others we will be sure and communicate that to everyone.

Also, as an update, we tested 288 employees and 98 healthcare residents yesterday. Great news – all tests were negative! We will test everyone again on Monday, May 24th and if everyone is negative we will be able to resume routine testing based on the county positivity rate.
