Why the Wellness Endowment

At the Arthur & Gloria Muselman Wellness Pavilion your support means that everyone who uses our facility and programs are offered a higher level of wellness. This does not just include physical wellness but social, emotional, and spiritual wellness as well.

Your gifts to the Wellness Endowment support Berne and the surrounding communities. Your giving impact the lives of our over 1,500 members and all of the non-members through programming and activities.

Donations to the Wellness Endowment mean that more educational opportunities, new equipment, activities, programming, and services will be able to be offered. Most importantly we will be able to better serve all members of the community from childhood to adulthood.

There are many costs associated with the Wellness Pavilion above what membership dues cover. Your gift helps to improve the quality of life for many. Thank you for making a difference!

Muselman Wellness Pavilion Endowment

What your Gift Means

- Improved quality of life for Berne and surrounding communities
- More programming, activities, and educational opportunities
- An empowered community
- A community center that promotes happier, healthier relationships among ourselves, our families, and our communities

The Wellness Pavilion Means...

The words of our members speak to the meaning and health that the Wellness Pavilion provides. As a community of 4,000 having a facility dedicated to all aspects of wellness is a blessing to many. Willa K. Sprunger joined the Wellness Pavilion so that she could walk New York with her granddaughter. She faithfully walked at the Pavilion and used that time to pray and worship God. She was able to meet her goal and enjoy life to the fullest. Malcolm Stauffer was amazed when his doctor told him that he is in better shape than people

who are younger than him. Even with arthritis his flexibility and range of motion increased.

We hear often from members how happy they are at the energy they gain, the strength they see return, and the amount of pain that disappears. Many families have enjoyed being able to spend time together in the pool, exercising, and modeling healthy lifestyles thanks to Child Watch.

The Wellness Pavilion allows our community to live life to the best of their abilities through maintaining their health, mobility, and wellness.
