RE: COVID-19 Positive Healthcare Resident

After further testing of healthcare residents, we have had one resident test positive for COVID-19. All indoor visitation, communal dining, and activities will now be canceled for healthcare residents for a minimum of 14 days.

Outdoor visits are still permitted. We ask that visitors now sign up for outdoor visits online at www.swissvillage.org/healthcare-resident-visitation. Sign-ups will be available beginning Friday. We ask that all visitors wear a mask during outdoor visits.

EFC's may continue to enter the building.

Westenfeld will be temporarily closed for a minimum of 10 days. Residents living in Zurich and Lucerne Haus will not be able to access the main campus through Westenfeld. Residents are encouraged to walk or drive around.
