

SWISS VILLAGE HEALTHCARE CAMPAIGN FOR EXCELLENCE

Thank you for considering your support of the Swiss Village Healthcare Campaign for Excellence! Your gift will help create a welcoming place for both current and future residents to call home and live life to the fullest. Each resident has entrusted Swiss Village to provide high quality care and your gift helps to create a lasting impact to ensure that care. You are providing an environment that enhances life with dignity, meaning, and opportunity for growth. Your support, along with that of many others, makes it possible for each resident to live in an environment that feels like home and allows them to live with joy and meaning.

Sonnenblum, Lavendel, and Alpenrose have served our residents well for 50 years. During those many years this space has been outgrown and become outdated. Your financial support will help to make these spaces become more inviting, home-like, and usable for our residents' current and future needs. We invite you to join in building excellence for all residents who call Swiss Village Healthcare home!

EXCELLENCE

The care provided at Swiss Village goes above that of a 5 star facility. Residents are more than a patient. They are cherished and valued people, given personalized care filled with love, patience, and dignity.

Your support of the Healthcare Campaign for Excellence is giving quality of life to the residents in need of healthcare services.

The Swiss Village Board members believe so strongly in this campaign that 100% have pledged personal financial support, which, collectively, is more than 15% of the \$2,000,000 goal.
