RE: Update for January 2, 2021

Date: January 2, 2021

Happy New Year! During routine testing on Wednesday, December 30th, we tested 214 employees. Unfortunately, 5 of those tests came back as positive. The good news is – we are not imposing any new restrictions. Residents in residential and assisted living can still enjoy their meals in the main dining room and any independent living resident that would like to utilize the dining room can, as well. Please note - Westenfeld is still closed to foot traffic until further notice.

Unfortunately, there are still no indoor visitations at this time. We encourage residents to do window visits with their friends and family.

Independent living residents can travel out and about in the greater community with caution. However, we are asking all other residents to remain on campus unless they have a medically necessary appointment.

These positive tests take our numbers to: 108 employees, 7 contract employees and 68 residents having tested positive. Full recoveries stand at 102 employees, 7 contract employees and 60 residents.
