RE: Brief Update from the Three Test Results

DATE: December 31, 2020

Happy Last Day of 2020!! May this be a good day and 2021 be a terrific New Year! I wanted to provide a brief update on the results of the three tests that we had sent for confirmation or otherwise with the Lab. The results returned this morning and they are all positive. We had already taken immediate precautions, as you were advised, on Monday in order to limit the spread. Our two residents are quarantined on Westenfeld and are in great shape, asymptomatic! And our employee has been home on quarantine since learning of the positive first test. Our hopes are that these immediate actions have given us the prevention necessary to limit any spread at all. Your safety and our employees' safety are our utmost concern. These findings will **not** impact the reopening plans that were announced yesterday as all three of these lived or worked in the Healthcare settings, and proper prevention steps have been take there as well.

These results now take our running totals to 103 employees, 7 contract employees and 68 residents having tested positive. Full recoveries stand at 102 employees, 7 contract employees and 60 residents. Thank you for your continue patience and diligence! And... Happy New Year!
