CELEBRATE RETIREMENT... ENGAGE LIFE!

MEMO

TO: All residents, Responsible Parties and Employees
FROM: Rod Mason, President/CEO
RE: Weekly Update – Back on Track
DATE: August 26, 2020

Greetings to all constituents! I am thinking this will be a fairly brief and succinct update! I/we really have no new news to share with you, which is a very good thing! Happily, I am still reporting ***no new/active cases of COVID-19 from within our resident family nor our employee family*** outside of those with which you have already been made aware. I am further pleased to share that, as of this point, it appears we will be reopening the Kinder Haus Daycare after seeing that there has been no further development of cases there! We are extremely grateful to our residents, families and friends and, of course, our employee group who have taken extreme care and concern over being super-protective of themselves and the care of others during this pandemic time! Without your care and attention and the overarching protection of God our Father, we could have had such a different and traumatic outcome as of this point! Thank you all!

This, however, is no time to let down our guard. I will not repeat what I have shared so many times in detail, but in brief, please continue to hold your guard up! The cases in the State and in our County continue to rise! While the Positivity Rate has levelled back somewhat, and there is a mask-directive for our County, cases continue to rise. If we do as authorities are advising, I would assume there will be a pretty quick reversal of the trend that we have seen in the last few weeks. Let's all pledge to do our part and play our role in bending that curve!

While there has been much enjoyment associated with the outdoor visits that we have been able to host, we also realize that the Fall season is bearing down on us. Plans are under way now as to how, exactly, we will handle and manage that time, in addition to the Holidays, during the Pandemic time. Be on the lookout in the weeks ahead for news on that matter.

Bottom line... THANK YOU ALL!! Please help us continue with the good news! We are in this TOGETHER! And we will get through it TOGETHER.
